THE EVOLUTION OF PALLIATIVE CARE

Palliative Manitoba is a registered charity focused on easing the suffering of the dying and the bereaved. Serving as a vital resource for individuals, families and caregivers. Palliative Manitoba provides programs, services, education and information to lessen the stress at the end of life and support for those grieving the death of a loved one. We partner with agencies and health care providers throughout the province and speak in support of universal access to quality palliative care and a palliative approach to health care as a whole. We also aim to enhance the profile and understanding of palliative care in the province, identify gaps in knowledge and services and seek ways to address them.
